

STRATEGIC PLAN WORKING PARTY

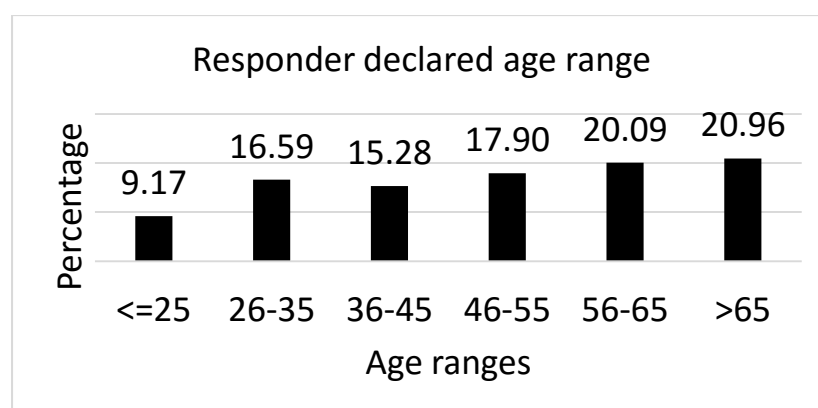

PROGRESS REPORT April 2016

Since the last meeting, members of the Working Party have undertaken street surveys on three occasions asking the question, "What would improve Barton for you?"

So far we have received 229 comments from 123 people and groups. These have been grouped into the following themes for ease of analysis.

- Traffic & Highways
- Environment
- Barton Town Council
- Tourism
- Town Centre and Shops
- Transport
- Economy
- Services and infrastructure

We have also been asking people for their age range to ensure a representative sample of responses across the population. The results are in the table below.

<u>Age?</u>	<u>%</u>	<u>#</u>
<=25	9.17	21
26-35	16.59	38
36-45	15.28	35
46-55	17.90	41
56-65	20.09	46
>65	20.96	48
	100	229

These results show that we need more replies from the three younger age groups. This will be the focus of our next street surveys over the coming few weeks.

Our next meeting will be on 25 April at 5.30 in the Assembly Rooms.
