

**Community Emergency Plan  
for the Parish of  
Barton upon Humber  
Town Council**

## **SECTION I: PLAN ACTIVATION**

### **Activating the Plan**

This plan should be activated when an incident occurs that requires a co-ordinated community response.

Any member of the Parish Council / Community Emergency Team may be notified of such an incident, often by the local authority or residents. They should contact one of the following people who have been authorised to activate the community emergency plan and lead the initial incident response:

- Chairman of Emergency Planning Sub-Committee
- Chairman of Environment Committee
- Member of Emergency Planning Sub-Committee
- Member of Emergency Planning Sub-Committee

## SECTION 2: EMERGENCY TEAM ACTION CHECKLIST

IN AN EMERGENCY DIAL 999. Follow the Emergency Services advice at all times, and always be aware of your own safety and the safety of those around you.

- Gather as much information about the situation as possible - e.g.:
  - The location of the emergency.
  - Type of incident.
  - Number of people and/or properties involved.
  - The type of support that might be needed (e.g. moving items upstairs, providing immediate shelter, basic household tasks).
  - Tune into your local radio station for updates.
  - Make contact with the representatives of any responding organisations at the scene.
- Consider whether you can work effectively from your current location, or whether you need to move to an alternate location (see [Section 3](#)). Arrange for the Incident Room to be opened as appropriate.
- Notify the emergency team and request they meet at the nominated location (see [Section 1 & 3](#))
- If the emergency has the potential to be drawn out consider putting in place a rota for all the roles involved. It is important to make sure people don't over work themselves during an incident as this can easily happen.
- Use the standard agenda to run the meeting. Circulate the Response Aim and Objectives so people know what you are trying to achieve. (see [Section 6](#).)
- Decide which local resources should be mobilised initially to support the community. (see [Section 4](#)). You might want to give this task to one person within the emergency team to co-ordinate.
- Notify the following, as appropriate:
  - Community Coordinators / Area Wardens
  - Flood Wardens
  - Ward Members
  - Neighbourhood Watch Groups
  - Any other Groups pre-agreed locally(see [Sections 4, 7 and 9](#))
- If there is a representative from the Emergency Services, Council or other responder working in your community, please go and introduce yourself and tell them you have activated your community emergency plan.
- Consider asking for additional members of the community (volunteers) to help with the response, you may have pre-identified community coordinators already (see [Section 4](#)). You might want to give this task to one person within the emergency team to co-ordinate.

The type of support that would be welcomed changes from emergency to emergency but might include:

- Helping people move valuable and sentimental items upstairs.
  - Helping deploy any flood protection products they might have.
  - Providing some immediate shelter if people have had to leave their homes.
  - Looking after pets.
  - Providing lifts to family and friends.
  - Doing basic household tasks such as shopping.
- 
- The Council may be sending update emails to the Emergency Team members. Agree who is going to keep checking the council email account and keep monitoring the Council's website.
  - Tell your community that your emergency team is functioning and if appropriate maintain a presence in the area(s) affected (see [Section 3](#)).
  - Help communicate any warning information messages, and recommend that people tune into the local radio station.
  - Keep the public message boards and any social media sites (Facebook, Twitter, etc.) used up to date with the latest information.
  - Decide whether you will offer residents a key number to contact during the emergency.
  - Establish contact with neighbouring Parish/Town Councils and ask for/offer support if appropriate (see [Section 7](#))
  - Ensure that any members of your community engaged in the response are not putting themselves at risk. Make sure they are acting lawfully (e.g. not speeding), carefully and are not carrying out tasks and activities that they are not qualified to do.
  - When the immediate risk of the emergency has passed consider what role the Parish Council can play in helping the community recovery. Continue the meetings of the Community Emergency Team, using the Recovery Aim and Objective (see [Section 6](#)).

## SECTION 8: SNOW CLEARANCE PLAN

**Snow Clearance Table**

<b>Clearance Area (listed in Order</b>	<b>Area to Be Cleared</b>	<b>Provide more information on area to be cleared if appropriate</b>	<b>Equipment and People Required</b>
1	Primary routes	As defined by North Lincolnshire Council	
2	Secondary routes	As defined by North Lincolnshire Council	
3	Meadow Drive		Have own Salt bins – Cllr P Vickers Barton Snow Warden has additional salt in storage as needed.
4	Forkedale Corner		Has own Salt bin - Cllr P Vickers Barton Snow Warden has additional salt in storage as needed.
5	Caistor Road		Has own Salt bin - Cllr P Vickers Barton Snow Warden has additional salt in storage as needed.

## General Advice on Clearing Snow

- The aim of the snow clearing is to make the situation better and safer when finished than it was before you started.
- It's easier to move fresh, loose snow rather than hard snow that has packed together from people walking on it. So if possible, start removing the snow in the morning.
- When you're shovelling snow, make a path down the middle of the area to be cleared first, so you have a clear surface to walk on. Then shovel the snow from the centre of the path to the sides. Take care where you put it so it doesn't block paths or drains.
- Do not pile up snow where it will block or obstruct the footpath, access to property or road in any way. It may be necessary to remove any resulting accumulations of snow.
- Spread salt on the area you have cleared of snow to prevent the residual film icing over.
- Salt is very effective and requires only a small amount spread over a wide area to stop ice forming, all types of salt are effective for example dishwasher or even table salt works well when treating household paths and drives.
- If you have a pedestrian salt spreader, the following rates could be used:

Freezing conditions	10-20 g/m <sup>2</sup>
Freezing conditions expected after rain	15-25 g/m <sup>2</sup>
Freezing conditions and / or light snow expected	15-25 g/m <sup>2</sup>
Continuous snow expected	20g/m <sup>2</sup>
Ice Formed	10-25 g/m <sup>2</sup>
Hard packed / snow ice	20-40 g/m <sup>2</sup>
Snow cover exceeds 30mm	20-40 g/m <sup>2</sup>

- Salt doesn't work instantly; it needs sufficient time to dissolve into the moisture on the ground. You can use rock salt, ordinary table or dishwasher salt - a tablespoon for each square meter you clear should work. If you don't have enough salt, you can also use a grit and salt mix. This is particularly helpful on snow that is starting to compress, as it helps to provide better grip under foot. Sand or ash can also be used for this.
- Avoid using hot water as it may freeze and make the situation more hazardous.

## **Flooding Advice for Residents**

### **If a flood is expected**

- Move items upstairs or to a high place – particularly sentimental items that cannot be replaced such as photograph albums.
- Bring caged outdoor pets inside, move all pets with food, water, bedding and litter trays upstairs
- If you have time, move your car out of the flood risk area. Empty furniture drawers and cupboards. Place the contents and any furniture you can upstairs. Fasten plastic bags round the legs of wooden furniture to help minimise absorption of water
- Be prepared to turn off mains gas and electricity
- Be prepared to evacuate if necessary:
  - Grab 'Go bag' and check contents.
  - Turn off electricity, gas and water supplies and unplug appliances
  - Take their mobile phone and charger.
  - Take some spare clothes.
  - Take prescribed medication with them.
  - Take cash and credit cards.
  - Lock all doors and windows.
  - If they leave by car, take bottled water, a duvet or blankets and tune into the local radio for emergency advice and instructions.
- Put plugs in sinks and weight them down to prevent backflow from the drains. Weigh down the loo seat too.

### **During a Flood**

- Accidents happen in fast flowing flood water. Try to avoid contact with flood water. Do not drive through flood water and do not let children play in flood water. As well as the risk of disease, manhole covers may have dislodged under the pressure of floodwater creating a drowning risk.
- Stay safe, listen to the advice of the emergency services and evacuate when told to do so.
- Do not touch sources of electricity if you are standing in water.
- Always wash their hands/arms/legs after coming into contact with floodwater with hot water and soap.
- Keep contaminated footwear and clothing away from children

## PLAN PUBLICATION AND INFORMATION

### Plan Publication

Electronic copies of this plan have been e-mailed to:

- [heps@eastriding.gov.uk](mailto:heps@eastriding.gov.uk)
- Barton upon Humber Town Council – Councillor Jonathan Evison

The original electronic version of this plan is kept at:

- Barton Town Council Office

Backup electronic versions of this plan are kept at:

- North Lincolnshire Council Emergency Planning Team
- Chairman of Emergency Planning Sub-Committee
- Chairman of Environment Committee

Hard copies of this plan are kept at:

- Barton Town Council Office

A web version of the plan **with the confidential information removed** has been posted on [bartontowncouncil.org.uk](http://bartontowncouncil.org.uk) for public information.

### Plan Maintenance

The plan should be reviewed every year at February Parish Council Meetings. During the review every section of the plan should be checked for accuracy (telephone numbers, resource lists etc). Deputy Town Clerk will have responsibility for reviewing the emergency plan and should report back the Parish/Town Council meeting to confirm that a review has taken place.

Any updates to the plan, or lessons that have been learned from exercises, should be approved by at least two of the Parish Members before the plan is changed.

Deputy Town Clerk is responsible for providing an updated version of the plan to all those listed in Section I.

### Plan Exercise and Review

This plan should be exercised annually by Chairman of Emergency Planning Sub-Committee will have responsibility for arranging the exercise. An exercise guide and some potential scenarios are available at [www.Letsgetready.org.uk](http://www.Letsgetready.org.uk), or by calling 01482 393051.

Chairman of Emergency Planning Sub-Committee should make sure that all the people who are involved in the plan are aware of their role, and know that that they might be contacted during an emergency.

### **Data Protection**

This plan will contain personal information once complete. Town and Parish Councils should follow their data protection procedures when completing, maintaining and storing this plan.
