(a) **Barton Lions Club**

It was reported that Barton Lions Club members have yet to help at Far Ings Nature Reserve as they have not been permitted access there to date. On Sunday 1 November Barton Lions Club started work at the Barton Train Station clearing brambles and overgrown bushes to expose the platform. It is hoped work will continue there on 6 December however this will be dependent on national restrictions in place regarding COVID-19. The annual bulb planting has been supported with £250 donation.

(b) **Barton Rotary Club**

The Town Council have been advised that meetings are still suspended until further notice. Therefore they do not have any items to report.

(c) **Barton Civic Society**

Barton Civic Society have been in discussion with North Lincolnshire Council regarding the list of tree sites and have requested a Google map of the proposed sites to enable an assessment for highways site issues and the suitability of the species recommended. There is concern that the Derelict Building Sub Group has not met since March and there had been previous success from the group. Environment Sub Committee has been working with Ongo regarding the derelict land on Soutergate. Ongo have now cleared the land enabling the possibility of a community orchard or tree planting. However there is a lot of rubbish still on the site and the Sub Committee does not have access to a trailer. The Chairman will liaise with the Derelict Building Sub Group to arrange a meeting. Barton Lions Club would be approached to enquire if any of the members have access to a trailer to facilitate the removal of the rubbish from Soutergate once it is safe to do so.

148. **Minutes of Meeting held on the 7 September 2020**
