

Barton upon Humber Neighbourhood Plan

What is a Neighbourhood Plan?

A Neighbourhood Plan is a statutory land-use planning document.

The contents and themes of the Plan are informed by community consultation and engagement.

Its purpose is to shape and influence how Barton develops over the next 15 years.

It sets out a vision for the future of Barton.

It will include a set of planning policies and design guidance to help influence how Barton develops.

The plan will be used by North Lincs Council to determine planning applications along with their own Local Plan planning policies.

It will cover topics such as:

Housing

Community services

Environment

Sport and leisure

Infrastructure

Culture and tourism

Business and industry

Why are we producing one for Barton?

Barton will be allocated 583 new homes over the next 15 years. It is important that these new homes are well designed and meet the needs of local people.

Barton contains many historical and culturally significant buildings and places which can be identified and conserved in the Plan.

Barton has several areas of high environmental importance, the Plan can seek to conserve and enhance these.

This is an opportunity to address climate change and ensure Barton is climate resilient.

Issues around parking, transport, movement, walking and cycling can be addressed to make Barton safer and more convenient to walk and cycle.

Community services and facilities can be identified and protected, to ensure they continue to serve local people.

Local business and industry can be supported and inappropriate types of industry can be discouraged

How can I get involved?

We want to hear what local people think about Barton to help shape the scope and content of the plan.

Please complete the surveys as part of this consultation.

Check the Town Council's website for updates or email:

townclerk@bartonuponhumbertowncouncil.gov.uk

What are the benefits?

Neighbourhood Plans are an opportunity for local people to help decide how their local area should develop.

The best Neighbourhood Plans rely heavily on local communities to contribute to the process to share what they feel is important about where they live.

Areas with an adopted Neighbourhood Plan receive 25% of Community Infrastructure Levy funds, compared to 15% for areas without a Neighbourhood Plan. This is a fee paid by developers to contribute to local infrastructure.

The Town Council will receive these funds in order to develop and support local projects that are important to the people of Barton.

A vision for Barton upon Humber

Engagement

So far over 500 local people have been involved in the consultation for the Neighbourhood Plan.

A survey was undertaken in 2020 and the results of that survey have informed the initial stages of this work.

It is important that local people are involved in the process so that the Neighbourhood Plan reflects the hopes and aspirations of as many people as possible.

The vision, aims, objectives, and draft policies are all responses to initial and continued community engagement and several project team meetings.

Throughout the process consultation and engagement has been undertaken so that people have as many opportunities as possible to contribute to the process and to make sure people are informed of what is proposed.

Vision

“Barton will be a vibrant, inclusive, and sustainable town, with attractive green spaces and high quality housing, community facilities and infrastructure, making it a desirable place for people to live, work and visit now and into the future.”

Do you agree with this vision for Barton?

Do you support the aims and objectives?

Aims and objectives

- Ensure all new housing meets the needs of the local community now and in the future
- Improve the vibrancy of the town centre, local economy, and tourism sector
- Conserve and enhance heritage, green spaces, wildlife and biodiversity
- Improve resilience to the effects of climate change
- Retain and enhance community facilities
- Improve local infrastructure to meet the changing needs of the town
- Promote sustainable and active travel, whilst securing enhancements to town centre parking

Housing

Housing in Barton

The Neighbourhood Plan cannot stop new housing development but can shape and influence how it comes forward to ensure it meets the needs of local people.

Barton is set to receive around 583 new homes over the next 15-20 years due to the allocations in the emerging North Lincolnshire Local Plan.

This is an important opportunity to make sure that new housing is well-designed and is built to meet the challenges we face.

What are your priorities for new housing?

Do you support the proposed policy areas for housing?

Policies

BNDP1 High Quality Design

Making sure new homes are well-designed and respond to the character of Barton

BNDP2 Accessible and Adaptable Dwellings

Encouraging new homes to be accessible and adaptable so that they meet the changing needs of occupants. This includes making sure homes are suitable for people challenged by mobility and can be easily retrofitted should people require a chair lift in later life and encouraging some new homes to be designed to meet the needs of people with dementia

BNDP3 Home-working

Encouraging new homes to be better designed to accommodate those working or studying from home

BNDP4 Sustainable Design and Construction

Requiring new homes to be sustainably designed and constructed to help address the challenge of climate change

Policies

BNDP5 Housing Mix

Requiring new homes to provide a mix of house types and sizes to meet the needs of local people.

BNDP6 Space Standards

Ensuring that homes and habitable rooms are large enough for family activities and can store sufficient furniture to meet people's needs. Requiring new homes to provide reasonable private amenity space in developments such as gardens or courtyards

BNDP7 Building for a Healthy Life (BfHL)

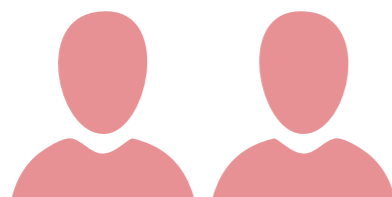

BfHL is a type of toolkit and assessment that scores housing developments across 12 different criteria.

The Plan will encourage developments to have independent BfHL assessments done to assess and improve the design of new housing

Community services

Services in Barton

The Neighbourhood Plan can identify and seek to retain services and facilities that are important to the local community. These are often vital to many members of the community and contribute greatly to the local area.

Policy

BNDP19 Community Services

The following community facilities and services have been identified for protection in this Plan.

- A) Baysgarth Museum
- B) Baysgarth Leisure Centre
- C) Barton Library
- D) Barton Dental Care
- E) Barton Cricket Club
- F) Barton Town Football Club
- G) Barton Juniors Football Club
- H) Wilderspin National School Museum
- I) Public Toilets (Town centre & Water's Edge)
- J) Brigg Road Bowls Club
- K) Barton Park Bowls Club
- L) The Ted Lewis Centre

Support is given to the expansion or enhancement of existing facilities, or development of new facilities or services, to meet local needs, including but not limited to play and recreational spaces, health and wellbeing facilities, and spaces that encourage and facilitate social interaction.

New or replacement community facilities should be located within reasonable walking distance to the community served.

Business & Industry

Business & Industry in Barton

The Neighbourhood Plan can include policies on the types of businesses and industries that are encouraged or discouraged in Barton.

Encouraging business and industry in Barton can improve the local economy and provide jobs. The majority of people in Barton that work, travel outside Barton for work. Increasing opportunities in Barton can reduce the amount of people that need to travel outside of the area for work and can attract investment from outside the area.

Policy

BNDP20 Business and Industry

Support is given for new commercial enterprises and businesses, especially those that would provide convenience and/or reduce need for residents and visitors to travel outside of the town to access facilities.

Support is given to the reuse of former agricultural, industrial or mill buildings, providing all other material planning considerations are satisfied.

Support is given to the development of shared office space such as co-working spaces, providing all other material planning considerations are satisfied.

Infrastructure

Infrastructure in Barton

Local infrastructure provides a vital role in ensuring places work well for people and the environment.

With an increase of 500+ new homes in Barton over the next 15-20 years, improvements to local infrastructure may be required.

Do you support the proposed policies on Infrastructure?

Do you agree with the suggested residential parking guidance?

Policies

BNDP16 Town Centre Parking

Proposals that provide new car parking facilities within the town centre, whether temporary or permanent, are encouraged and will be supported.

Proposals that provide secure cycle storage and cycle parking facilities within the town centre are encouraged and will be supported

BNDP17 Residential Parking

New developments should comply with design guidance contained in the Barton Design Code to produce low-traffic neighbourhoods, design-led street layouts, and parking solutions that provide:

- A) high quality and secure on-site cycle storage;
- B) EV charging points;
- C) the expected amount of parking spaces, including visitor parking, sizes of garages and driveways; and;
- D) where garages are provided, they should be to the rear or side of properties in the same architectural style as the house they serve.

Parking provision is to conform to North Lincolnshire Council standards.

Policies

BNDP18 Pedestrian and Cycle Connections

All new developments should connect with existing footpaths and cycle paths where available, and where required, improve the network. Developments should allow for safe and convenient pedestrian and cycle movement to local facilities, shops, schools and public transport connections.

Enhanced pedestrian and cycle routes will be sought through existing green spaces and into the wider environment. Connections and routes should be adequately lit, sufficiently overlooked to provide natural surveillance and prioritise user safety.

A dedicated pedestrian and cycle route connecting Barton to Barrow is sought.

The creation of a low traffic zone in Barton Town Centre will be supported.

Environment

Environment in Barton

Barton has a variety of locally and nationally important wildlife and biodiversity sites in addition to green spaces that support leisure and recreation.

The plan can identify these spaces and include policies that support their retention and enhancement. Barton also a Conservation Area and many other historic buildings throughout town which can be included in the plan.

Do you agree with the 13 proposed Local Green Spaces?

Do you agree with the proposed list of non designated Heritage Assets?

Policies

BNDP8 Local Green Spaces

Protect 13 locally important green spaces from potential development

BNDP9 Design and Development in the Conservation Area

A policy setting rules for the design of buildings in the Conservation Area to ensure they respond to the character and quality of Barton

BNDP10 Heritage

Policy which identifies and designates 111 buildings throughout Barton as Non-Designated Heritage Assets (NDHA). These buildings are not currently protected as they are either not Listed Buildings or are outside of the Conservation Area and NDHA designation provides them a level of protection.

BNDP11 Green infrastructure & Biodiversity

Protect existing areas of green infrastructure and encourage new provision locally in new schemes

Policies

BNDP12 Tree planting

Promote tree planting throughout the town and protect existing trees

BNDP13 Archaeology

Protect sites of archeological importance during the development process

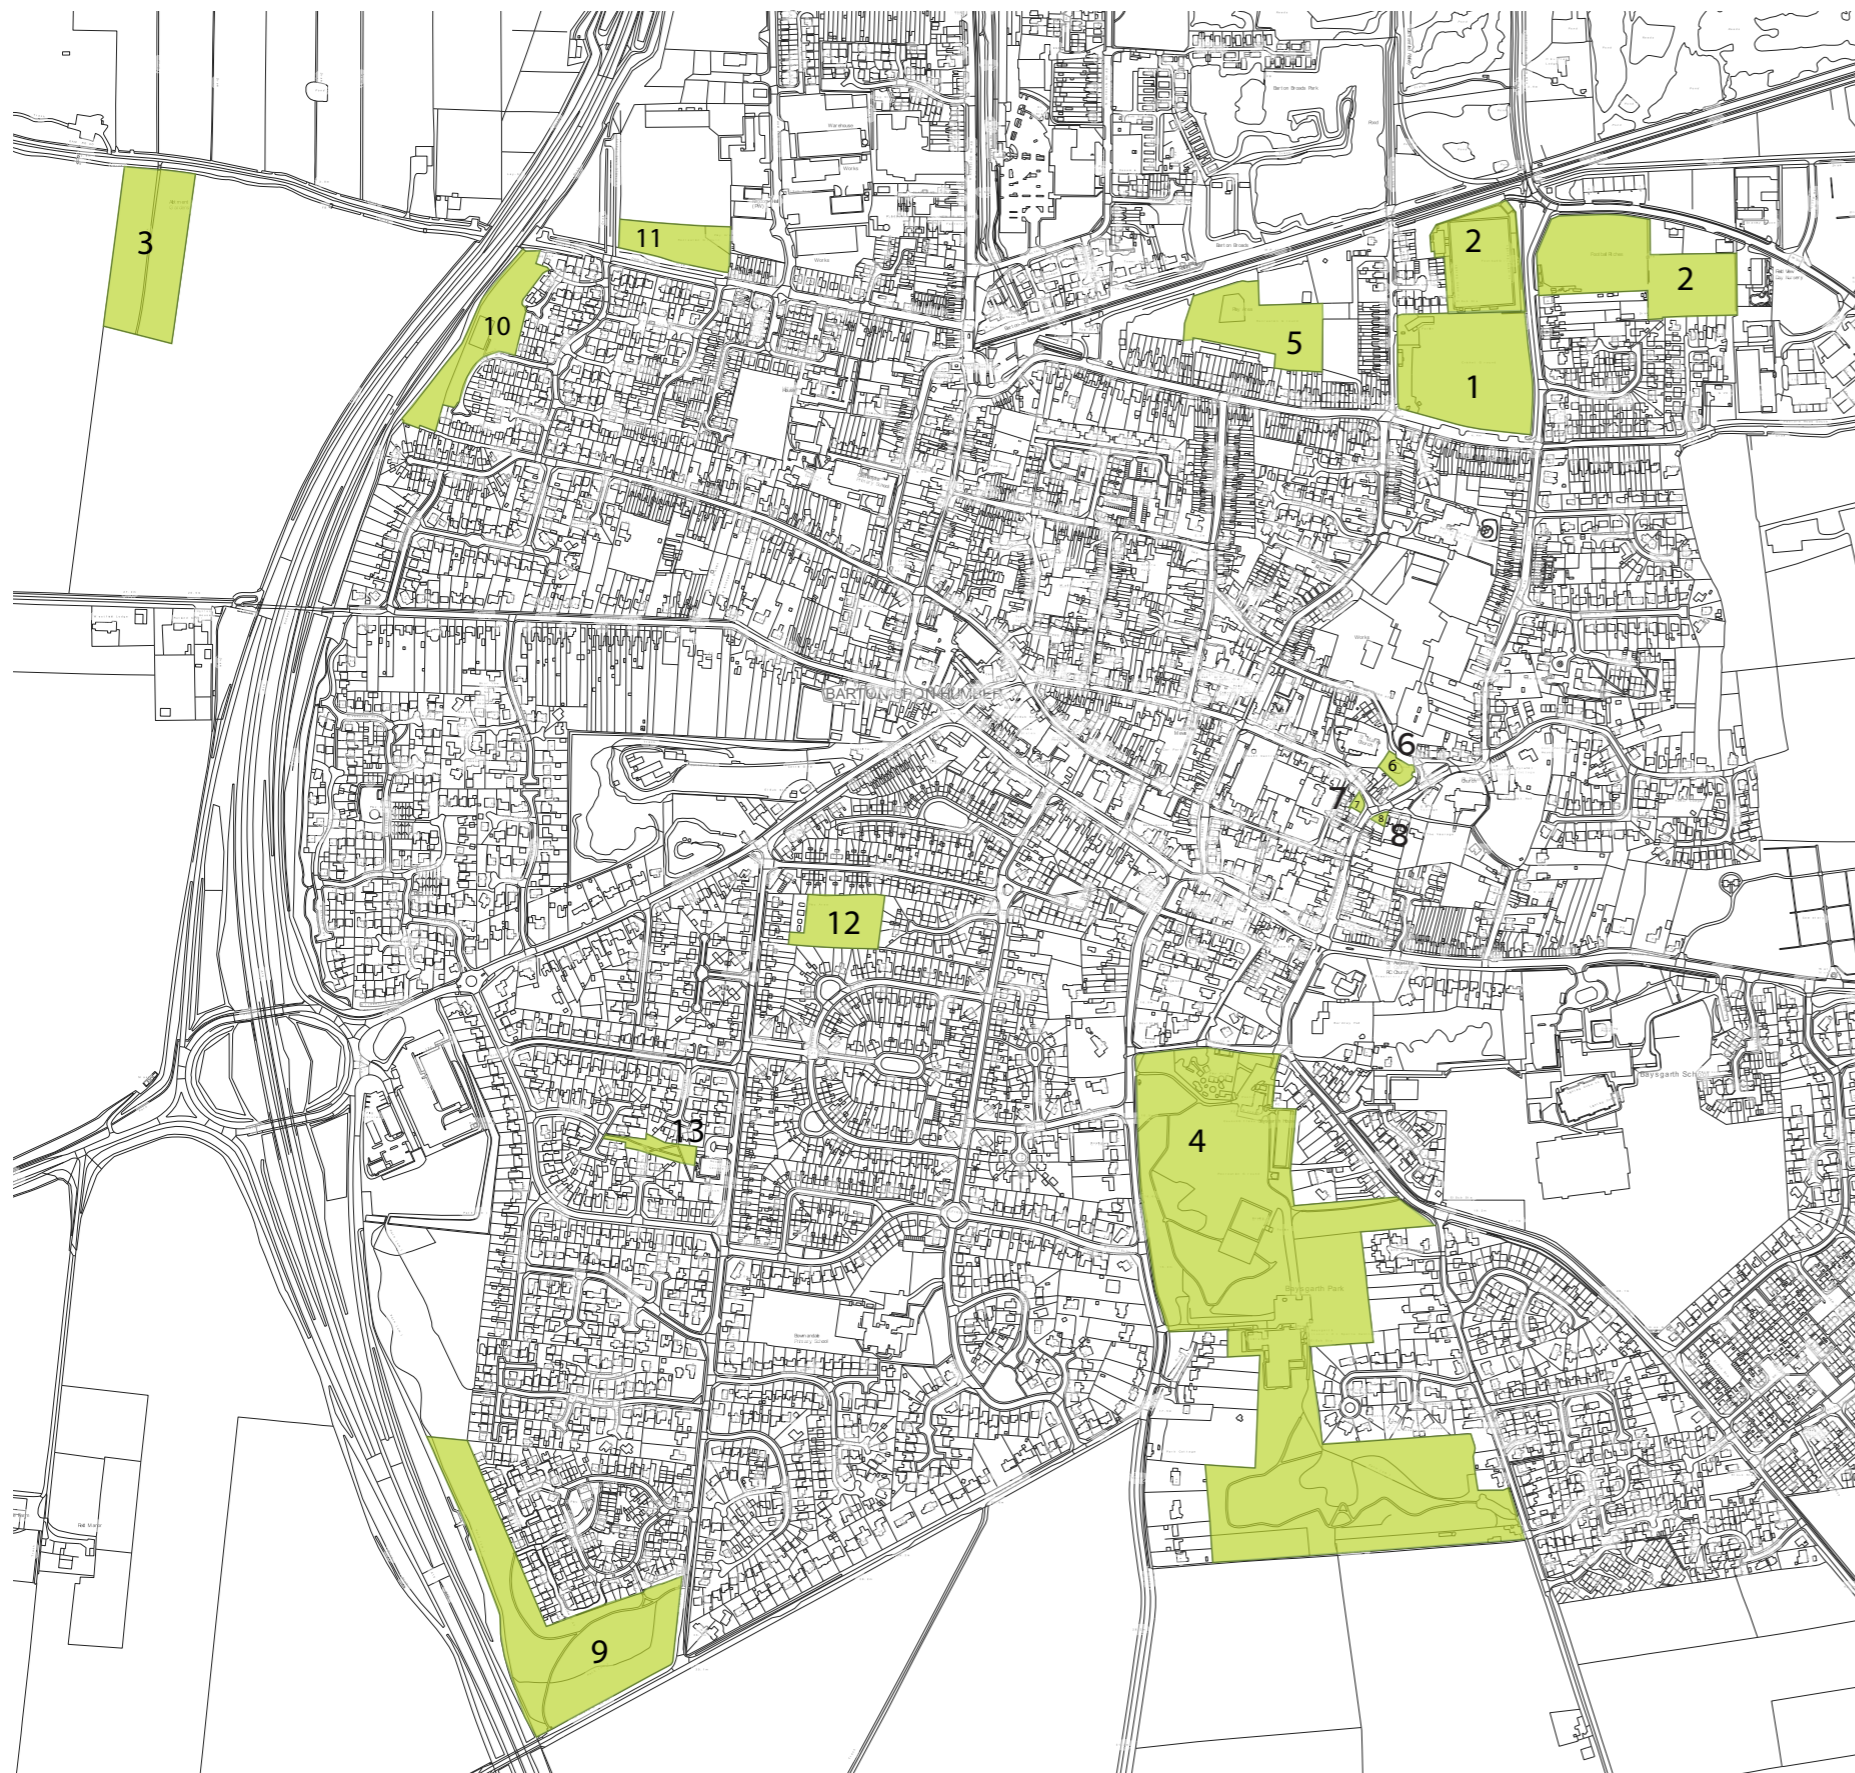

BNDP14 Flood resilience

Require Sustainable Drainage Systems (SuDS) and other water management infrastructure in new developments to help mitigate the risk of flooding and promote sustainable water management

BNDP15 Green Corridors

Encourage new connected green spaces and connect existing spaces

Map of Proposed Local Green Spaces

2. Football Ground and Pitches

3. Allotments

4. Baysgarth Park

5. Playing field and play area off Butts Road

6. The Beck (East of St Mary's Church)

**7. Green space on corner of Burgate and
Whitecross Street**

**8. Green space on corner of Whitecrosss
Street and Green Lane**

**9. Land north of Horkstow Road, to east of
A15**

**10. Playground, playing field and orchard off
Lapwing Way**

11. Dam Road Park

12. Tofts Road Play Area

13. Recreation Orchard, off Bradwell Close

Heritage assets

The following properties are proposed to be included in the Neighbourhood Plan as Non-designated Heritage Assets (NDHA).

Currently these buildings have no statutory protection as they are not in the Conservation Area nor are they currently Listed Buildings.

By designating these buildings as NDHA they will be given a level of protection from demolition or significant change. Homeowners will still have rights to alter and extend their properties in line with permitted development rights and through planning applications.

The full list of properties will be subject to a heritage assessment to better understand their heritage significance. All homeowners will be notified following the heritage assessments if their property is proposed to be included in the final version of the Plan.

107. Barton Field Farm
108. Chapel Farm
109. Deepdale Farm
110. Beaumontcote Farm
111. Ness End Farm

Sport & Leisure

Sport and Leisure in Barton

The Neighbourhood Plan can support and promote sport and leisure provision in Barton. These facilities are important as they contribute towards creating healthy and active communities and provide opportunities for socialisation. Ideally there would be a range of facilities on offer for all age groups and abilities in Barton.

Do you support the proposed policy on Sport and Leisure?

Policy

BNDP21 Sport and Leisure

Existing sport and leisure provision, including children's play areas, and other sites that provide recreational and wellbeing opportunities should be retained.

The loss of any sport and leisure provision will only be permitted should the proposal satisfy the criteria set out in the North Lincs Local Plan Policy CSC3.

Support is given to the expansion or enhancement of existing facilities, or development of new facilities or services, to meet local needs, including but not limited to play and recreational spaces, health and wellbeing facilities, and spaces that encourage and facilitate social interaction.

New or replacement community facilities should be located within reasonable walking distance to the community served.

Culture & Tourism

Culture and Tourism in Barton

Barton has a small but growing culture and tourism sector with local attractions such as the Old Tile Works, Ropewalk, Water's Edge, and Wilderspin museum. There are opportunities to boost Barton's offer as a tourist destination.

Do you support the proposed policies on Culture and Tourism?

Policies

BNDP22 Culture and Tourism

Existing cultural and tourist attractions should be retained, where viable, and support is given to their enhancement or expansion, and to the development of new cultural and tourism opportunities and attractions.

Support is given to the creation and improvement of signage and marketing to help promote these sectors in Barton.

BNDP23 Visitor accommodation

Support is given to the development or creation of visitor accommodation in Barton to help grow and support the local tourism sector.
